Medizinische Klinik B

International Training Course Endoscopic and Interventional Hepatology

October 1-2, 2026

Park Akademie | Roxeler Str. 349
48161 Münster

JK_26_149 | September 2026 | Fotos: UKM

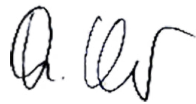

Dear Colleague,

The management of patients with liver cirrhosis and portal hypertension is complex and requires not only extensive knowledge of pathophysiology but also advanced practical skills. Our training course is aimed primarily at physicians in gastroenterology and hepatology who already have basic knowledge of endoscopy and hepatology. Lectures by our international experts will provide all relevant theoretical foundations, including instrumentation and indications. A special focus of this course is to give you ample opportunity for hands-on practice. In small groups, we will use simulators and biomodels to practice and deepen endoscopic and interventional skills. Complex cases will be demonstrated through live cases.

We look forward to your participation and interest!

Prof. Dr. med.
Michael Praktijnjo

Priv.-Doz. Dr. med.

Prof. Dr. Dr. med.
Matthias Dollinger

Program

Thursday, October 1, 2026

4.00 pm Registration & coffee

4.30 pm Welcome

Prof. Dr. med. Michael Praktijnjo, UKM
Univ.-Prof. Dr. Dr. med. Jonel Trebicka, UKM

Session I Non-invasive and interventional diagnostics of portal hypertension

4.35 pm Portal Hypertension:

Pathophysiology, Clinical Outcome and non-invasive risk stratification
Univ.-Prof. Dr. med. Alexander Zipprich, Universitätsklinikum Jena

5.00 pm HVPG and Transjugular Liver Biopsy: Indications, Technique and Interpretation

Prof. Dr. Dr. med. Matthias Dollinger, Klinikum Landshut

5.25 pm Coffee break and industrial exhibition

Session II Endohepatology - basics, diagnostics and therapy in portal hypertension

5.50 pm Basics EUS Evaluation and Anatomy of the Liver

Dr. med. Frank Erhard Uschner, UKM

6.10 pm EUS-guided Liver Biopsy:

Indications, Technique and Results
Prof. Dr. med. Barbara Braden, UKM

6.30 pm EUS-guided Portal Pressure Gradient measurement: Indications (cirrhosis, PBC, MASLD, PSVD) and Technique
Prof. Dr. med. Michael Praktijnjo, UKM

6.55 pm EUS-guided Coiling of Gastric Varices: Indications, Technique and Results
Prof. Dr. med. Wim Laleman, UKM

7.30 pm Satellite symposium sponsored by Boston Scientific

8.30 pm get together an industrial exhibition

Friday, October 2, 2026

Session III Live Demonstrations

8.30 am State-of-the-Art Lecture: Advances in Interventional Endoscopy in HPB Medicine

Prof. Dr. med. Ulrike Denzer
Universitätsklinikum Marburg

9.00 am Live Cases:

EUS-guided liver biopsy
EUS-guided Portal Pressure Gradient measurement
Transjugular Liver Biopsy
HVPG-measurement
EUS-guided Coiling of Gastric Varices
TIPS-procedures/Shunt Embolization

12.00 pm Lunch and industrial exhibition

Session IV Hands-on Workshops

1.00 pm Hands-on Workshop:

EUS-guided Puncture Model

Prof. Dr. med. Barbara Braden, UKM
Dr. med. Florian Rennebaum, UKM
Dr. med. Dominik van de Loo, UKM

Hands-on Workshop:

EUS-guided PPG measurement Model

Prof. Dr. med. Wim Laleman, UKM
Dr. Frank Erhard Uschner, UKM
Dr. med. Martin Sebastian McCoy, UKM

Hands-on Workshop:

HVPG and TJLB Model

Priv.-Doz. Dr. med. Michael Köhler, UKM
Christina Hofmann, Klinikum Landshut

4.00 pm Test

4.45 pm Test evaluation, summary, conclusion

Prof. Dr. med. Michael Praktijnjo, UKM
Prof. Dr. Dr. med. Matthias Dollinger, Klinikum Landshut
